SERDI CORPORATE PROFILE

**SERDI's clients
include many
government
agencies and
corporations**

Ms. Sabrina Poole is President and CEO of SERDI. Since forming the company in 2004, Ms. Poole has successfully transitioned the firm from a small consulting practice to a fast-growing, information technology solution provider with an outstanding track record of successful government and private sector contracts.

The SERDI Principles

- **Business Re-Engineering** - To provide clients with solutions crafted to meet their specific challenges and enable them to profit from the advanced use of technology and business processes.
- **Business Results** - Achieving sustained growth and profitability for the benefit of all stakeholders in the business through a "get it right first time" approach and by always striving to beat our previous best performance.
- **Cost Effective** - Meeting customer needs in a cost-effective manner and supporting them with ongoing training and best practices to deliver business solutions.
